

A photograph of a brown bear and two cubs walking along a rocky shoreline. The bear is in the foreground, facing left, with two smaller cubs following behind it. The background is a misty, forested area with a body of water visible in the distance. The overall tone is warm and natural.

HARDWOOD FLOORING

DISCOVER OUR
COLLECTIONS

THE MOTHER OF ALL HARDWOOD FLOORS

Top-quality hardwood floors
made from Northern trees using
state-of-the-art technology:
That's the Wickham promise.

100% NORTH AMERICAN HARDWOOD

Wickham Hardwood Flooring is located in Wickham, Quebec (Canada). Active for more than 30 years in hardwood floor manufacturing, the company is entirely self-sufficient with its own kilns and processing plant including finishing lines. Renowned throughout Quebec and the rest of Canada, it also exports a significant portion of its production abroad, notably to the United States, Europe, Asia and the Middle East.

4 collections FOR ALL TASTES & BUDGETS

If you are considering changing or upgrading your decor, you should choose Wickham Hardwood Flooring because we have what you are looking for. Pure and simple! Our unique, diverse collections offer a wide choice of options in terms of colors, widths, grades and finishes. If you want an exceptional, refined product that is both competitively priced and easy to work with, you'll find we have everything to meet your flooring needs.

Wild West Collection

THE TRUE NATURE OF WOOD

Enjoy the true nature of wood with all its subtle nuances and warm patterns. Thanks to our wire brushing technique, each plank's texture and personality is revealed. The addition of unique tints conveys a classic or contemporary look. This collection offers an authentic and long-lasting floor that effectively hides scuffs and scratches.

COMPARATIVE GUIDE

SOLID

Natural, warm and tough, hardwood floors offer exceptional durability, and all the elegance your personal style deserves. They also add to your home’s resale value. What more could you ask for?

ENGINEERED BALTIC BIRCH

Under humid conditions, an engineered floor offers greater stability than a regular hardwood floor. And because it can be easily installed on concrete surfaces, it’s the ideal choice for condominiums and basements. Made with a core of Baltic birch wood veneered with a ⅞ in. (4mm) layer of hardwood, this engineered floor meets Wickham’s most rigorous standards.

GRADES

Every tree is unique, like a fingerprint, and every piece of wood is assigned a grade corresponding to its natural characteristics. This system is unequalled for proving wood’s authenticity.
